The Program for 05/20/2008

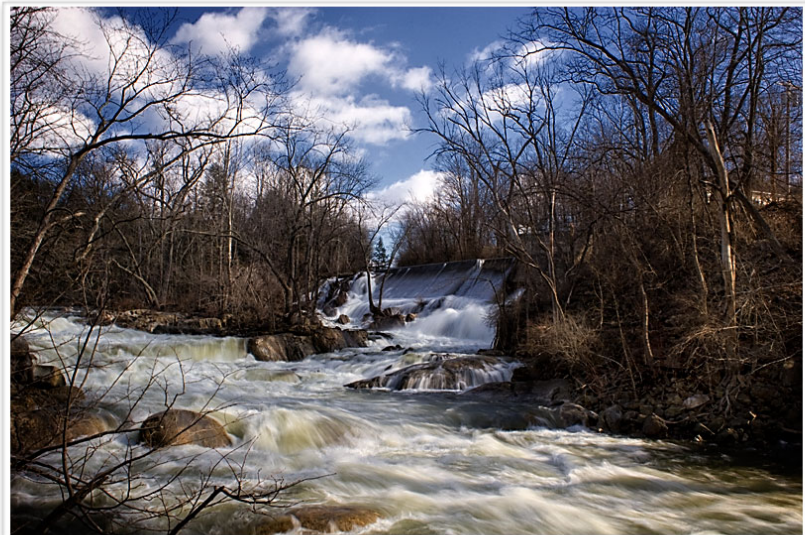

Year end dinner meeting, to be held at Noble Horizons on Tuesday, May 20th.

Noble is putting together a menu for us and I will send details out as soon as they are available. The cost will be approx. \$12-\$15 per person depending on the number of people attending.

We will meet for drinks and munchies at 5:00, dinner at 6:00 and our meeting at 7:00.

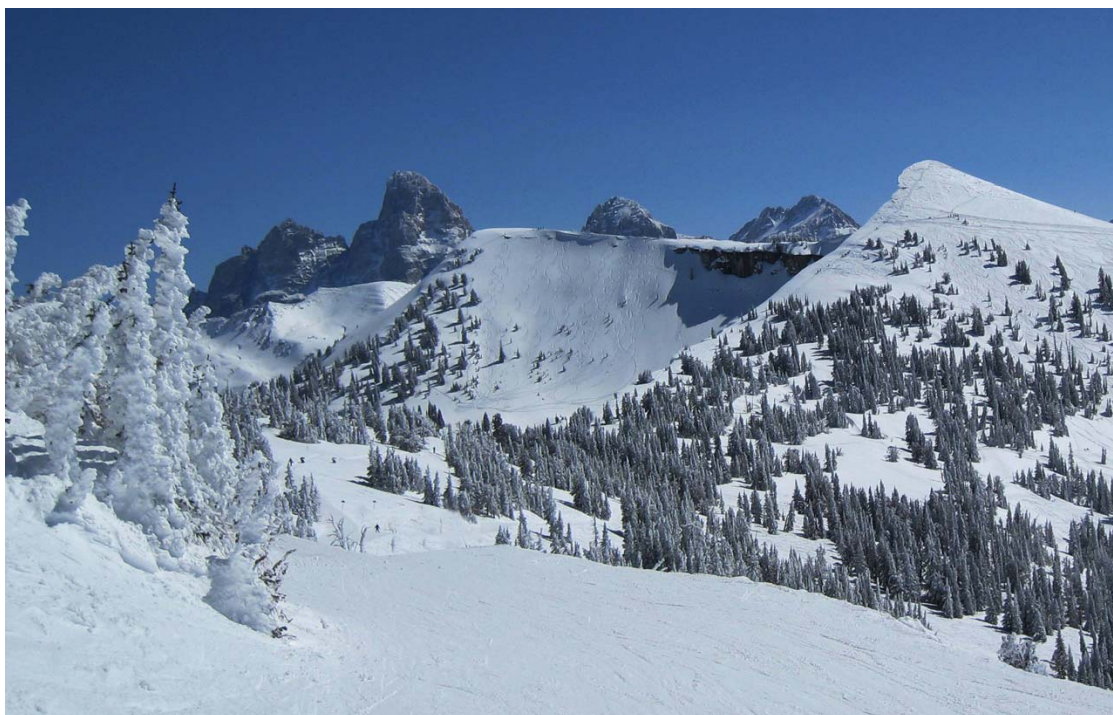

Please respond as soon as possible so we can get an approximate number to them as soon as possible. I have to get them a final count by the 13th.

Hope to see you all there, it will be a fun evening. Sergei

Digital Black-and-White Infrared

Do you have an older generation DSLR that is sitting around doing duty as a backup camera? Want to get it back into the game?

Life Pixel IR Conversion Services, a company based in Redmond, WA, will either sell you a kit to do your own IR conversion or they'll do it for you. Life Pixel offers three different conversions to suit your style: Standard Color IR is similar to a duotone look and can be converted to B&W IR in Photoshop; Enhanced Color IR can give you some crazy '60s effects or you can convert it to B&W IR in Photoshop; and Deep B&W IR gives you the effect of B&W IR straight out of the camera. If you like the effect of IR, find an old digital camera and have it converted. There's nothing like a new toy to get you all jazzed up about photography again.

© 2007 Lazlo

Price for conversion begins at \$250.00.

A fond farewell:

As I had stated months ago, this will be my final newsletter for the club. I find myself in a place where spare time is a rare commodity. Further I find it hard to balance what I want to do with what I feel I have to do. As I do not like doing things at 50% and can not give my all I find it not fair to A) The Club and B) Myself.

To myself be true.

I have made some really good friends in you all and will miss many things. I hope the club continues to grow and get stronger. I urge you all to take an active role in helping to make the club a success.

I bid you all peace, may all of your exposures and histograms be perfect.

John

Learn to use that external flash: The posts cover everything from how flash units work, using them in Manual mode, high speed flash photography, fill flash and a whole lot more. Read it [HERE](#)

Housatonic Camera Club

President	Sergei
Vice President	Jane Rossman
Secretary	Cheryl Green
Treasurer	Jen Abbott
Membership	Jen Abbott
